Notes to the consolidated financial statements

For the Half-Year Ended 30 June 2020

Note 1 Significant Accounting Policies

These general purpose financial statements for the interim half-year reporting period ended 30 June 2020 have been prepared in accordance with Australian Accounting Standard AASB 134 'Interim Financial Reporting' and the Corporations Act 2001, as appropriate for for-profit entities. Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 34 'Interim Financial Reporting'.

These general purpose financial statements do not include all the notes of the type normally included in annual financial statements. Accordingly, these financial statements are to be read in conjunction with the annual report for the year ended 31 December 2019 and any public announcements made by the company during the interim reporting period in accordance with the continuous disclosure requirements of the Corporations Act 2001.

The principal accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period, unless otherwise stated.

New or amended Accounting Standards and Interpretations adopted

The consolidated entity has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

Going Concern

The financial statements have been prepared on the going concern basis, which contemplates continuity of normal business activities and the realisation of assets and settlement of liabilities in the normal course of business.

As disclosed in the financial statements, the Group incurred a loss of \$415,325 and had net cash outflows from operating and investing activities of \$66,316 and \$32,797 respectively for the half-year ended 30 June 2020. As at 30 June 2020, the Group was in a net current liability position of \$1,268,030.

These factors indicate significant uncertainty as to whether the Group will continue as a going concern and therefore whether it will realise its assets and extinguish its liabilities in the normal course of business and at the amounts stated in the financial report.

The Directors believe that there are reasonable grounds to believe that the Group will be able to continue as a going concern, after consideration of the following factors:

- The Company expects to raise additional capital to fund working capital requirements and;
- The Company has been successful in getting the Directors and Shareholders to subordinate its \$664,057 debt owed by the Company for at least 12 months from the date of signing these financial statements.

Accordingly, the Directors believe that the Group will be able to continue as a going concern and that it is appropriate to adopt the going concern basis in the preparation of the financial report.

Notes to the consolidated financial statements
For the Half-Year Ended 30 June 2020

Going Concern (continued)

The financial report does not include any adjustments relating to the recoverability and classification of recorded asset amounts or the amounts or classification of liabilities and appropriate disclosures that may be necessary should the Group be unable to continue as a going concern.

The economic impacts of the COVID-19 outbreak, which occurred to the reporting date, remain uncertain. It is possible that there will be subdued economic wide activity during the year ending 31 December 2020. To date, COVID-19 has had minimal impact on the business, however in this environment the directors acknowledge it does have the potential to affect parts of the business, particularly its ability to raise capital and its ability to start proposed current and future projects, including but not limited to, the consolidated entity's proposed Kwahu Praso Gold Project.

Due to their short term nature, the carrying amounts of current receivables and current payables is assumed to approximate their fair value.

Notes to the consolidated financial statements

For the Half-Year Ended 30 June 2020

Note 6 Contingent Liabilities

There have been no changes in contingent liabilities or contingent assets since the end of the previous annual reporting period.

Note 7 Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker has been identified as the Board which makes strategic decisions.

Identification of reportable segments

The Group has identified its operating segments based on the internal reports that are reviewed and used by the board of Directors (chief operating decision makers) in assessing performance and in determining the allocation of resources. Accordingly, management currently identifies the Group as having only one reportable segment, as at 30 June 2020. There have been no changes in the operating segment during the year. All significant operating decisions are based upon analysis of the Group as one segment. The financial results from this segment are equivalent to the consolidated financial statement of the entity as a whole.

Note 8 Events After the Reporting Period

The consolidated entity is aware of the impact that COVID-19 is having on the Australian and World economy.

The Directors have considered the impact of the Coronavirus on the consolidated entity's recorded asset values and the Directors are of the view that there has been no material impact on the consolidated entity's recorded asset values as at or subsequent to the reporting date.

As at the date of these financial statements, the consolidated entity is not aware of any impact that has occurred in relation to any of its staff, contractors or key suppliers.

Given the negative impact that has occurred and is continuing to occur on world financial markets as a result of the COVID-19, the Directors are of the view that there is the potential that the COVID-19 will have a significant negative impact on the consolidated entity's ability to secure the required debt and equity financing for its proposed current and future projects, including but not limited to, the consolidated entity's proposed Kwahu Praso Gold Project. At the date of these financial statements, this impact is not able to be fully assessed or measured.

No other matters or circumstances have arisen since 30 June 2020 that has significantly affected, or may significantly affect the Group's operations, the results of those operations or the Group's affairs in future financial years.
